

WELCOME MESSAGE

On behalf of the World Association of Radiopharmaceutical and Molecular Therapy [WARMTH]& Rajiv Gandhi Cancer Institute & Research Centre Delhi, it is our pleasure to invite you to the 11th International Conference on Radiopharmaceutical Therapy [ICRT] which will take place November 13-16, 2016 in Cochin (also known as Kochi), India. One full day sightseeing of the internationally acclaimed “Kerala backwaters” has been planned on November 17 for you to carry the beautiful memories back home.

This ICRT meeting in Kerala, which is one of the sought-after tourist destinations and commonly referred to as “God’s own country”, promises to be a highlight for the theranostic soul of nuclear medicine and will be based on the theme “**From Controversies to Consensus in Radiopharmaceutical Therapy**”. There will be plenary lectures devoted to nuclear medicine therapy as well as therapy-related diagnosis and follow-up. The distinguished speakers will share their experience & address the state-of-the-art and new developments. The symposia organized throughout the meeting will truly reflect WARMTH’s mission with the goal of providing the best care for our patients.

The meetings organized by WARMTH are conceptually different from all other congresses. We try to keep the expenses as low as reasonably possible so that professionals from all parts of the world and from all levels of nuclear medicine practice can attend. There will be no parallel sessions so that all participants can take part in all scientific activities of the conference as well as in all social activities. An important highlight of this conference will be the “First Ajit Padhy Memorial Oration” to be delivered by one of the well-known professionals belonging to the global nuclear medicine family.

In addition to the scientific and educational activities that you will enjoy during your attendance, the local organizing committee will do its best to make you feel welcome at Cochin during November 2016.

In addition to the lump sum package previously announced for the venue hotel, the organizing committee is pleased to announce a further subsidized conference package for the Indian participants as below.
